"A MOST PERSISTENT FRAUD."

Enever, Bennett and Haynes Sentenced.

FORMER HONGKONG MAN GETS SIX MONTHS.

(Reuter's Service.)

London, April 30.

A nine-day trial resulted in Edwin Alexander Enever being sentenced to three years' penal servitude; William Henry Bennett to fifteen months in the second division; and Leslie Ernest Haynes to six months in the second division.

Accused were charged with conspiracy to cheat persons who could be induced to invest money in Messrs. Humphrey, Denman and Company, which firm dealt in a number of subsidiary concerns supposedly interested in mines in China, it being eventually discovered that the Company's effects in China were valueless.

Inspector Gillard incidentally testified that Haynes had been "posted" at the Selangor Turf Club for non-payment of debts totalling \$3,000, and that a warrant was issued in Hongkong last year for debts which he had attempted to discharge with dishonest cheques.

The Common Sergeant, in passing sentence, said:—"This is a very bad fraud; indeed, a most persistent one, deliberately thought out and carried to the bitter end. A great many people, chiefly officers, have been defrauded of money which they could ill afford to lose. Frauds of this kind are too rare. Enever is a dangerous man." Referring to Bennett, he said he was not the initiator of the fraud, but, at the same time, he got £2,700 out of them.

[The officers who lost money in the ventures referred to included Lieut.-Gen. Sir Charles Kavanagh and Col. McLaggart, who both came out to China, but discovered that the Company's titles to certain mines were valueless. Leslie Ernest Haynes is quite well-known in Hongkong. He came here in the latter part of 1920 and joined a local firm. Later, he secured a position as master in a boys' school here, whilst he was also closely identified with one of the churches. He left Hongkong in 1921, owing a considerable sum of money.]

THE PROHIBITION LAW.

How It Affects Foreign Shipping.

Washington, April 30.

The Supreme Court has decided that foreign and American steamships are prohibited from bringing to American ports intoxicating liquors under seal intended for the use of passengers on the outward voyage. It held, however, that American steamships are not prohibited from having on board intoxicating liquors for beverage purposes on the high seas, and in foreign ports. The latter decision reverses the ruling of the Attorney General against serving liquor on the high seas.

The Court declared that examination of the Prohibition Act as a whole showed that it was plainly intended to be operative within the territorial limits of the United States, except in the case of the Panama Canal, that it was not intended to apply to American vessels outside territorial waters, and that it was intended to apply to all merchantmen, whether foreign or domestic within territorial waters. The Court held that Federal jurisdiction over foreign ships in American territorial waters was complete. It would be possible, however, that Congress would waive the enforcement of this and permit foreign ships to do things American ships were prevented from doing, but the Court was of opinion that foreign nations cannot force any such exemption.

Immediately the ruling was announced, officials of American and foreign steamship companies hastily conferred in order to devise plans for meeting the situation.

The Secretary of the Treasury announces that the date of the enforcement of the new regulations in accordance with the Court's ruling, will be fixed later. Ships now at sea will not be affected.

London, April 30.
In the House of Commons, Mr. Ronald McNeill, replying to Mr. C.P. Trevelyan, said the United States authorities had seized, and still detained, a British vessel on the ground of her small boats having entered the three mile limit illegally, although the vessel herself remained outside. The British Government questioned the right of the United States Government to make this seizure, and diplomatic correspondence was proceeding.

THE IRISH TRUCE.

Much Spadework Still Necessary.

Dublin, April 30.

The absence of news of acts of violence and disorder since noon suggests the assumption that the irregulars' "cease fire" order began to operate at that hour, though Dublin is not yet very confident, regarding this as a one-sided truce.

Sydney, April 30.
Two Irish Republican envoys, Father O'Flanagan and Mr. O'Kelly, who have been propagandising Australia, also Mr. Clancy, vice-president of the Irish National Association, have been arrested on a charge of unlawfully engaging in seditious enterprise. A crowd numbering a thousand hooted the police and cheered the envoys. Bail was allowed.

L.O.N. AND THE RUHR QUESTION.

A Plain Hint by France.

Paris, April 30.

Those in England and elsewhere advocating the intervention of the League of Nations in the Ruhr received the plainest intimation of France's attitude in a speech by M. Barthou, President of the Reparations Commission, in which, after paying a tribute to the League, he declared that the League would exceed its mandate or at least compromise its work if it yielded to the generous but imprudent and dangerous suggestions inviting it to take up questions not within its scope, like Reparations and the Ruhr Occupation. Neither France nor Belgium would accept such action.

HONGKONG MILITARY LANDS.

Progress Being Made in Negotiations.

HOPES OF AN EARLY TRANSFER.

(Reuter's Service.)

London, April 30.

In the House of Commons, the Hon. W. G. A. Ormsby Gore, replying to Mr. Gershom Stewart, said negotiations were proceeding with the War Department regarding the valuation of their present properties in Hongkong and the provision by the Colonial Government of suitable alternative sites for the military establishment.

He added that progress was being made and he hoped the transfer would be effected satisfactorily with the least possible delay.

THE SHIPYARD DISPUTE.

Boilermakers Locked Out.

London, April 31.

A lockout of ten thousand boilermakers was enforced, to-day, and work in the shipyards is jeopardised, and in some yards has come to a standstill. A good deal of repair work has been diverted to the Continent. The employers are doing their utmost to minimise the disorganisation by continuing to employ other workers as long as possible, but a thousand trade unionists who were prepared to accept the agreement repudiated by the boilermakers have automatically become idle along with the boilermakers.

MOSSAMEDES' MISSING BOAT.

Cape Town, April 30.

The latest news indicates that it is practically certain the Mossamedes' missing boat, containing ten to thirteen passengers and crew, including two Englishmen, has been lost. The survivors declare that the boat was the last of a straggling line. A man was seen in the bows signalling frantically and unintelligibly. The boat was then hidden by a big wave, and was not afterwards seen.

RUBBER RESTRICTION RELAXED.

London, April 30.

In accordance with the provisions of the rubber export restriction scheme in Ceylon and Malaya, the Secretary of State for the Colonies has approved for the quarter beginning May 1st, of a relaxation of the percentage restriction to sixty-five, in view of the price of rubber in the London market having averaged between fifteen and eighteen pence a pound during the quarter ending April 30th.

BETTER TIME FOR SHIPPING.

London, April 30.

Lloyds List publishes statistics compiled by the Chamber of Shipping showing that the shipping laid up in the United Kingdom on April 1st, was 546,000 tons compared with 732,000 tons on January 1st, and 1,112,000 tons in July, 1922. The latest figure is the lowest since December, 1920, when the returns began to be kept.

BILL FOR AMERICA'S ARMY OF OCCUPATION.

Washington, April 30.

The State Department before Mr. Wadsworth left Paris filed with the American-German Claims Commission a claim for 255 million dollars, for the cost of maintaining the army of occupation, as a precautionary measure in the event of the failure of the present negotiations with the Allies for collection of these expenses.

CHESTER CONCESSIONS CONFIRMED.

Constantinople, April 30.

Colonel Clayton Kennedy, on behalf of Admiral Chester, exchanged signatures on the convention embodying the Chester concession with Fevzi Bey, the Commissar of Public Works, Angora, yesterday.

SOVIET PROTESTS TO ITALY.

Lausanne, April 30.

Vorovsky states that the Soviet Government has sent a note to the Italian Government protesting against the exclusion of Russia from the conference unless she signs the Straits convention.

EGYPTIAN ELECTORAL LAW.

Cairo, April 30.

The electoral law has been promulgated. It provides for universal suffrage, with an age-limit of 21, with, however, a system of indirect election through so-called Elector-Delegates.

A LEAGUE APPOINTMENT.

Geneva, April 30.

Mr. Hsia-Chi-Feng, the well-known Chinese publicist, has been appointed a member of the information section of the League of Nations.

150,000 MARKS TO THE POUND.

London, April 30.

Marks have depreciated to 148,000 to 151,000, under Continental influences.

OUR RADIO BOX.

A correspondent signing himself "Radio" writes us as follows:—"I notice in the report of yesterday's meeting of the Radio Club that one speaker, in advocating the establishment of a broadcasting station here, said that 'no-one will sit and listen to a lot of dots and dashes,' meaning, of course, that without a broadcasting station in Hongkong, people would have to listen only to 'dots and dashes' from steamers and commercial wireless stations, and, as a consequence, enthusiasm would soon die out. Being a radio enthusiast myself, I would much like to see this Colony provided with a station from which concerts, market reports, commercial news and important speeches, etc., could be broadcasted, but it is hardly correct to say that, without a broadcasting station in Hongkong, only 'dots and dashes' would be heard, as it was only last week that a beautiful whistling concert was heard here by one of the steamers in the harbour, the set used being one with a receiving range of over 1,000 miles. If the concert in question was not broadcasted from Shanghai or Manila, then it must presumably have come from some station beyond these two. I think the majority of radio enthusiasts in this Colony would like to hear not only the Hongkong broadcast station but other stations as well, and it is up to our newly-formed Radio Club to approach the other Clubs in Shanghai, Manila, etc., and make arrangements with the latter to provide us with their programmes regularly. Hongkong undertakes to do the same in this respect. Thanking you for the insertion of this letter in your valued paper."

Wireless broadcasting has been the means of finding a Birmingham boy scout, who was missing from his home. Every week a talk to boy scouts is broadcasted from the Birmingham station, and in one of these the listeners-in were given a description of the missing boy. Some members of the Bristol police happened to be listening in. They took down the description of the boy, traced him, and returned him to his home.

It is learned from the Canton radio station that the new station in Swatow is at present being installed. The masts, one hundred and fifty feet high, have all been erected. It is expected that radio communication between Canton and Swatow will be possible within a week.

Two thousand scholars, assembled in three schools in different areas of Sheffield, recently listened to a French lesson broadcasted from Paris. The message was sent by General Ferrie, director-general of Radio Services to the French Government. The experiment, which was promoted by Mr. F. Lloyd, president of the Sheffield Wireless Society, was an unqualified success, and, according to Mr. Lloyd, it foreshadowed the advent of international education.

The London papers are advertising crystal wireless sets complete for thirty shillings. It is stated that perfect results can be obtained from these sets 15 miles from broadcasting stations and even further under suitable conditions. One of these sets was, it is recorded, used at St. Albans to listen to concerts held in London.

A radio set no bigger than a matchbox is illustrated in one of the Home papers. It was used by five people to listen to Mr. George Robey who was appearing at the Covent Garden Opera House.

A wall four feet thick failed to interfere with the reception of a radio message sent through it in a recent experiment in New York. This was accomplished

with the use of a radio accessory invented by Bernays Johnson of New York.

The value of radio was recently well illustrated in America when a woman, suffering from influenza, had her physician's prescription made up within 10 minutes, because radio was at hand. Her son has a transmission set and a druggist has one. It was easy for the amateurs to communicate and get the service desired.

As will be seen from an advertisement elsewhere in this issue, Messrs. de Sousa and Co. are in a position to supply Vacuum Tube receiving sets, with amplifiers and loud speakers. These have a radius of 1,000 miles and more. Tested locally, they have been found most satisfactory.

A young wireless expert states that he has discovered a simple method of increasing the strength of his set. By well soaking the ground surrounding the "earth" wire all connections are greatly strengthened, thus increasing the volume of sound received by his amateur installation.

A few years ago, France limited the use of radio for private purposes to experimental and educational institutions. Now, with these limitations abolished, there has grown up an army of 50,000 radio amateurs in the country.

More than 100,000 listeners in all over the British Isles were delighted when on a recent Saturday night they heard the captivating music of "Polly" transmitted from the Kingsway Theatre by the Broadcasting Company. Besides this vast audience the opera was in all likelihood heard by thousands throughout Holland, France and Germany. The perfect clarity, not only of the solo parts, but also the choral numbers and Mr. Fredric Austin's fascinating music was wonderful. Miss Lillian Davies (Polly) and Mr. Pitt Chatham (MacHeath) transmitted particularly well, and as a result of the experiment there are sure to be many listeners determined at once to see and hear more of "Polly."

The Anderson Music Company has secured the sole agency in Hongkong for the Magnavox, by the use of which, attached to a receiving set, broadcasted music, speeches, etc., can be heard in the home or a public hall by any number of people. This removes a limitation from the use of home radio sets. This Company will be prepared to give particulars to anyone interested.

FOREIGN LOAN FOR CHINA.

President's Statement.

Peking, April 30.—Wu Ching-lien stated in the House of Representatives that he had interviewed the President on Saturday when the latter informed him that a foreign loan of three-million dollars monthly for ten months had been concluded but was yet unsigned. The President stated that he did not know the terms and rate of interest or other details. Wu Ching-lien informed the House that he had told the President the loan could not be concluded without the sanction of Parliament. Reliable authorities have informed Reuter that the State Government is unlikely to obtain any foreign loan at the present time.

HONGKONG RIFLE LEAGUE.**Champions v the Rest.**

The winners of the Hongkong Rifle League competition for the season 1922-23 are H. M. Dockyard Rifle Club. The Dockyard are to be congratulated on having a splendidly organised team. Their ladies also take an interest in the welfare of the Club, principally by attending at the range and handing around the cheering cup of tea which is so welcome after a strenuous afternoon at the firing point. Taikoo Rifle Club were close runners up, losing only one match.

The annual match, Champions v The Rest of League, took place on Saturday last at Tai Hang. The weather and conditions being perfect some good scores resulted. D.R.C. ran out winners of an exciting contest by the narrow margin of 3 points. The Rest consisted of two representatives from each club competing in the League. Hongkong Police are not represented, and reserves had to be found to complete the team. This is regretted because the Police possess some very fine shots. At the close of the match the D.R.C. Captain, Mr. Arch. Brock, proposed the success and continued good fellowship between the members of the League.

The League Secretary, Mr. F. Goodman, replied. After congratulating the winners, he made reference to the coming Interport and invited all shooting men to practice with a view of helping Hongkong to regain supremacy in rifle shooting at least.

The usual cheers and Tai Hang "tigers" brought a very enjoyable afternoon's sport to a close. The scores are as follows—

CATHOLICS AND MUSSOLINI.**A Victory for Fascisti.**

Rome, April 21.
By seventy votes against ten, who abstained, Catholic deputies passed a resolution couched in conciliatory terms towards the Fascisti, affirming their willingness to collaborate in carrying out Mussolini's programme. This removes the immediate and definite break between Fascisti and Catholics but it is noticeable that the resolution does not absolutely repudiate the resolutions passed at the Turin Catholic Congress which were the immediate cause of the present crisis.

A second discussion chiefly raged about the attitude which the Catholic party will assume about the Fascisti proposal for abolition of proportional representation. Deputy Miglioli, who represents the left wing of the Catholic party and who has always been violently opposed to Fascisti (having his house burnt down by them last August), spoke in favour of standing rigidly for no change in the present electoral law. In this, however, he was not supported by his colleagues and a resolution was passed affirming the willingness of the Catholic party to examine the necessity for electoral reform in the light of new necessities which have arisen.

The whole resolution passed by the Catholics is a victory for Fascisti, because the Catholics have given up their attitude of absolute intransigence on the electoral question which was the chief point of difference between them and Fascisti.

The result of the meeting was immediately communicated to Mussolini who, however, still reserved his judgement. It is expected that it will be known tomorrow whether he will refuse resignations of Catholics in the Cabinet or whether he will persevere in his attention of suppressing their ministries and under-secretariats. A feeling of optimism however prevails and it is expected that present difficulties will be overcome without arriving at a schism between the Fascisti and the Catholics.—*Italian Wireless.*

GIRL KIDNAPPED.**Exemplary Sentence for Offender.**

Arising out of the running away of an unmarried girl named Tam Yum-bo, aged 16, from her home at 3 Kwai Wah lane on April 12th, Ma Chat, a woman, was charged before Mr. C. D. Melbourne at the Magistracy yesterday afternoon with taking away the girl without the consent of her guardian and with harbouring her. The girl is a servant and has been with her present mistress for eight years.

Mr. A. E. Wood, an assistant in the Secretariat for Chinese Affairs, prosecuted. It was stated by Mr. Wood that the girl disappeared from her home on the 12th April and was not found until the 19th April. During the seven days evidence would be given to show that, by arrangements, the girl on the 12th, went with the defendant to a certain house and stayed there until the 17th, when the defendant took her to 120 Wooning Street, Yau-mat, where she was eventually traced.

In her evidence the girl stated that the defendant was formerly employed as an amah by a family living next door to her house. On the 12th, taking advantage of the absence of her mistress, the defendant called at 3 Kwai Wah lane and took her out for a walk. She returned home in the afternoon. After the evening meal, at the instigation of the defendant, she obtained \$200 from her master by pretending that the money was needed by his wife, and afterwards handed the money to the accused.

Later in the evening, in accordance with previous arrangements, she went to a house at Lower Lascar Row to join the defendant, who then gave her \$10. She betrayed the defendant to the principal tenant of the house where she was staying, and the principal tenant got in touch with her mistress, resulting in the arrest of the defendant.

Defendant's statement was a virtual denial of the charges. She was nevertheless sentenced to six months' hard labour on each count, the sentences to run concurrently.

NOTICE.

Our Partner is Mr. WALTER E. WHITE, of 41, Raffles Lane, Chancery, London, England, who writes—

"Some three years ago I had a swelling in the knee cap. One night I knocked my knee which caused a little ulcer which in time no matter what I did, developed across the whole knee. I had one large gaping wound, and with all the care and attention that wound was open for 13 months. Being an all-round athlete, holder of many cups and prizes, I began to give up all hope of ever taking my place again among the athletes. One day one of my fellow workmen inquired how my leg was, and told me it was 'Clarke's Blood Mixture' wanted. That day I bought a bottle, and when I had finished it I was not only surprised myself, but all my workmates could see improvement. I could bend my knee a little and that gave me encouragement, so I persevered with it and am glad to say seven bottles completely cured me. I am now as well as ever, and am still holding my own as an athlete."

Sufferers from Bad Legs, Abscesses, Ulcers, Eczema, Itch, Pimples, Erysipelas, Haemorrhoids, should realise that lotions and ointments can but give temporary relief to be sure of complete and lasting benefit the blood must be thoroughly cleansed of the impure waste matter. The true cause of such troubles, Clarke's Blood Mixture quickly attacks, cures, and repairs the impurities, that is why so many remarkable cures stand to its credit. Pleasant to take, and free from poisonous ingredients.

EXPLOSIONS OF GRAIN DUST.

Apparatus to Remove Particles.

Chicago: The dust explosion menace in grain elevators, which has cost several lives and damage running into millions of dollars in the last few years, is to be removed by the elimination of the dust, as a result of investigations conducted by a committee representing grain dealers, boards of trade, fire insurance interests and fire prevention experts.

The Committee on Dust Control in Grain Elevators was organized early in 1922 after a series of disastrous explosions, including the \$2,500,000 blast which destroyed the mammoth concrete elevator of the Armour Grain Company and the Chicago and Northwestern Railroad here, with a loss of several lives. The insurance companies paid \$1,600,000 claims on that explosion. Canada had three disastrous explosions recently, one at St. John, N.B., one at Montreal and the third at Port Colborne, Ontario.

The committee has decided to recommend installation of apparatus in all elevators to remove the dust from the grain as it is handled.

BURIED ALIVE IN CAVE.

Victims of Religious Strife.

Paris: Thirty skeletons of men, women and children were found in a cave near the Chateau de Montagne, near Chantilly.

Workmen digging the road near the chateau discovered the cave, which was 30ft. long and 7ft. wide.

The walls bore traces of marks made with a sharp instrument. It is believed that during the sixteenth century religious wars of Henry IV. of France, the people whose remains were found were captured and buried alive by their enemies.

The Telegraph.

HONGKONG, 1st May, 1923.

THE RADIO CLUB.

The Hongkong Radio Club is now an established fact. One more organised body has been added to the Colony's list of institutions designed to serve useful purposes. We welcome this latest and newest organisation with special satisfaction, because it betokens a desire and a determination that Hongkong shall keep pace with modern developments. Radio communication undoubtedly has a great future. Most of us remember the time when the first signal was transmitted through space by means of wireless telegraphy. Since that time, great strides have been made in developing and perfecting the system, with the result that far distant places have not only been brought into closer touch one with another, but the human voice can be sent broadcast over continents and oceans by means of wireless telephony. Even so, we are still only on the fringe of future possibilities in this direction. In almost every part of the globe, scientific minds are concentrated on the study of this fascinating subject, and it is therefore only right and proper that here in Hongkong we should have a body whose members will take a practical interest in the question.

No one centre nor one race has a monopoly of genius, and it is quite conceivable that from the start now made in this Colony there will spring up an organisation which may contribute in no small degree to wireless research work in the days to come. One thing is at least sure—namely, that the little body of radio enthusiasts, now formally banded together, will derive the utmost pleasure and interest from pursuing studies on organised lines, and the time which they devote to the work will most decidedly not be wasted. We can foresee a career of the utmost usefulness for the Hongkong Radio Club. Then, quite apart from the personal enjoyment experienced by its members from their joint activity, we believe that the inauguration of this Club will have an indirect benefit to the commercial interests of the Colony. It will draw attention to the advantages of better means of communication between Hongkong and other Far Eastern centres, bringing us all into closer touch with each other. The movement is one which deserves every encouragement, and we trust that the Club will not be hampered in its development through lack of funds. Because of its potentialities for good, and because, incidentally, it will provide many a young man with a most useful hobby, the Club should receive the financial support of some of the larger commercial houses which can well afford to give it a helping hand. For ourselves, we are pleased to have been able to play a small part in bringing the Club into being, and we wish it a career of ever-growing usefulness.

Pioneer Work.

It was apparent from the Chairman's speech at the shareholders' meeting on Saturday that the Hongkong Hotel Company is as keen as ever on developing the southern side of the island. It has already done splendid pioneer work in this direction, but at present it is somewhat handicapped owing to a number of difficulties, one of which is the slow progress being made in the completion of the road from Wong-Nei-Chong Gap to Repulse Bay. The Company has a series of attractive schemes in hand, including the creation of a bungalow settlement, but it is essential for the carrying out of these that transportation costs should be lower than they now are. The southern portion of the road mentioned is at present under construction, and Mr. Fletcher told the Peak Residents' Association at its recent annual meeting that the contract "is about to be let" for the remaining portion. That is decidedly vague. The public, which is keenly interested in the future development of the Repulse Bay district, would like to see this work of road construction pushed on much more rapidly than at present. When this thoroughfare is completed, it will be possible to run out to the Bay in fifteen minutes, and the Hotel Company will be able to give a five-minute motor coach service at half the present rates. This is enterprise which should be encouraged, both from the point of view of the opening up of a relatively new residential district and also of providing better bathing facilities for the public. The new road is badly needed, and we hope the authorities will see that its construction is expedited.

Reservation Questions.

This comment has nothing to do directly with the matter of local European reservations, though it touches a principle common to any discussion of the subject. A Reuter cable published yesterday stated that the Kenya Colony controversy has shifted its focus to London, and the Colonial Office will have an opportunity of settling a vexed question: "It is quite an old controversy, so far as these matters go, having commenced not long after the Armistice. There are portions of this East African territory—particularly the higher elevations—which have been found so suitable for white colonisation that there has been quite a large influx of British settlers, mostly Ex-Service men, many with

It looks as though the new harbour works at Macao are now being started in real earnest. When the s.s. Chuen Chow left that port at 8 a.m. to-day, four tugs were seen approaching Macao from the south, composed of four tugs, seven lighters and a dredger.

their families. They are already doing fairly well at general farming and stock-breeding. The British Indian element in the population has also steadily increased, and the efforts to reserve portions of the territory as exclusively "white man's country" have led to bitter resentment. It is to be trusted that an amicable understanding will be reached, perhaps after concessions from both sides. The Indians will, no doubt, realise the justice of the white colonists' claim that they should have areas where, if they desire it, they can dwell in the midst of their own kind. Racial differences lead to contrasts in characteristics that are bound, unhappily enough, to clash; and it is for intelligent Asiatics to realise that reservation questions are hardly ever aimed directly against them, but arise from a natural desire on the part of European races to reproduce in a strange land as much as possible of the environment and mode of life of the country of their origin.

FIGHTING NEAR BRITISH BORDER.

Chan's Old Troops Moving.

REPORTS OF GUNFIRE.

Reports are to hand of military activity not far distant from the British border on the mainland opposite Hongkong. It is said that fighting has already broken out between Sun's troops and a force which formerly belonged to Chan King-ming, but which has declared its independence. Gun-firing has been heard from the direction of the railway near Wang Lik, which is only four stations beyond the border.

According to a Canton correspondent, it is reported that the number of Chan King-ming's former troops who have declared their independence in the East River district totals 5,000. One section has already arrived at Ping Wu and, it is said, intends attacking Sheklung.

In view of such developments, Dr. Sun has ordered the withdrawal of some thousand of Lau Tsun-wan's forces from the North River, his intention being to despatch these men to Sheklung, whilst he has also ordered Hsu Sung-chi's force to endeavour to carry out an attack from the rear.

Another report states that the firing of guns was heard on the evening of the 29th, from the direction of Wang Lik and Ping Wu. It is therefore presumed that fighting has commenced.

Other Fighting.

A report from the northern district says that Shum Hung-yung is preparing strong defence lines at Ngan Chan An, and the Yunnanese and Cantonese troops have been unable to carry out any attacks owing to lack of ammunition. There is therefore a lull in the fighting, but it is said that the Yunnanese have torn up many of the railway lines and laid mines to prevent the other side from attacking.

A report from Shaki, the principal city of Heungshan, states that fighting began on the morning of the 29th, between the forces of Commander Chu and Commander Wong. After an hour, the latter were defeated, suffering several casualties. The fight appears to have originated in a desire by both sides to extend their influence regarding areas in which they may collect gambling taxes.

Finding the Money.

Dr. Sun has ordered the Treasury and all financial departments to suspend payments of all description with the exception of salaries and absolutely necessary working expenses for two months, the idea being to devote the money thus saved to the payment of military expenses. A report states that General Ngai Bong-ping has arrived in Canton to take up the post of Commander-in-Chief of the left wing against the Kwangsi forces.

THE PROPERTY MARKET.

Humphreys Building Rumour.

There has been, as readers of this paper will have noted, a great deal of activity recently in the real estate market in Hongkong and Kowloon, and every few days one learns of big parcels of land, usually with valuable buildings erected thereon, going for several lakhs, in practically every case to Chinese buyers.

Reports have been in circulation that the substantial block of Kowloon flats known as Humphreys Buildings, as well as Carnarvon Villas, are on the market and that several offers have already been received for them. There was a rumour about town to-day that the property had been sold, but a representative of the Telegraph who enquired from Mr. Henry Humphreys was told that there was no truth in the rumour. Mr. Humphreys said that there had not even been a firm offer for the property so far.

It is stated that among the offers made for this valuable parcel of real estate is one from some Chinese. The public will no doubt be greatly interested in the ultimate destiny of these dwellings, which are occupied by European tenants.

CANTON AGRICULTURAL COLLEGE.

Protest Against Sale.

The faculty and student body of the Canton Government Agricultural College have again protested to the Civil Governor against the proposal of the Bank of Canton to include their college buildings and campus in the purchase and put up the lots now occupied by the college for sale. According to the officers and students of the college, the college buildings and campus were not included in the recent sale and the Civil Governor has also ruled that the college site was never intended for and not included in the sale.

It is understood that the members of the faculty and students will do all in their power to preserve their institution and will not recognize any real estate transaction involving their college property. The Bank of Canton has already taken over the lands of the Canton Agricultural Experiment in accordance with the terms of purchase made between itself and the Canton Government and is believing that the college grounds are within the terms of sale, according to another report.—Canton Daily News.

IN HONOUR OF DR. SUN.

Proposed Canton Celebrations.

The programme for May 5 in honour of the second anniversary of the inauguration of Dr. Sun Yat-sen as the "President of the Constitutional Government in Canton" will be very elaborate, including a big parade, says the Canton Daily News. The committee is calling on all organisations in the city to participate and send in their items of contributions for the procession for that day.

There will be a lantern parade in the evening in addition to the big gathering on that day. All will start from the Canton-Kowloon Railway Station. Among those to be expected to fall in line for the parade will be military bands, decorated motor cars, carriages, dragon and lion dancers, floats, and others.

The unique feature of the day will be a water procession. The famous dragon boats, flower craft, and other decorated vessels will be in line.

The students will also parade, and they will first assemble on the grounds in front of the East Garden.

At night fire-works will be displayed from the Dutch Folly, Hai-chu on the Bund.

Mr. H. Craig, acting chief engineer, Wosang, has gone second engineer, Essang.
Mr. F. Dunstan, second engineer, Essang, has gone second engineer, Wai-shing.
Mr. H. W. Fraser, second engineer, Wai-shing, is on reserve.—Shipping and Engineering.

RADIO CLUB FORMED.

Big Meeting at City Hall.

BROADCASTING POSSIBLE
IN A WEEK.

Radio enthusiasts attended the meeting convened by the Hongkong Telegraph at the City Hall last night in even larger numbers than anticipated. The old Chamber of Commerce room was comfortably filled, and there must have been fully a hundred and fifty present. Mr. A. Hicks presided, and was supported by Mr. B. Wylie and Mr. F. P. Franklin. The meeting resulted in the formation of a club, the election of officers, and the passing of a resolution urging the Government to grant a provisional broadcasting licence to any company willing to undertake the service, in which connection it was stated that, should the necessary permission be given, the Hongkong Hotel Company would be prepared to start within a week.

The Club's Chief Aim.

Mr. Alfred Hicks, the Editor of the Telegraph, in his opening speech, said: "Gentlemen—The object of this meeting, as you are all aware, is to consider the advisability of forming a Radio Club for Hongkong. A word of explanation may be necessary as to why the Telegraph has convened this gathering. We were approached by a few enthusiasts who expressed a wish that we should endeavour to arouse interest in the idea of a local radio organisation, and we were naturally only too pleased to do whatever we could to bring Hongkong into line with other progressive centres. The response which followed our appeal for names of those willing to join such a Club was prompt and wholehearted, and I think you will agree, gentlemen, that the attendance at this meeting provides ample evidence of the widespread interest which is being taken in the subject. If you should decide to start a Club here, I should like to express the hope that it will concentrate its activities on research and experimental work rather than on what might be termed the amusing side of radio. There will, of course, be people to whom radio will appeal as a fad, a novelty or a rather elaborate toy; but for the scientifically-minded there will be much more in it than that. The chief aim of the Club, I suggest, should be to help forward the development of wireless communication, to improve the knowledge of its members by experimental activity, and, perhaps, in this way to render some service in the perfecting of radio apparatus. In this connection, it is a most fortunate circumstance that amongst those who have sent in their names as being willing to join the Club are quite a number with expert knowledge of the subject. This knowledge they are quite prepared to place at the disposal of the members, and under the guidance of such experts this new organisation should have a most beneficial future."

One of the very first duties of the Club, when formed, will be to set about securing adequate Club premises. A room will necessarily be required where members can not only meet for exchange of ideas, but where demonstrations, instruction and lectures can be given. Already, some of our local firms have become deeply interested in the possibilities which a Radio Club might have in Hongkong, and I take this opportunity of appealing to them to render all the assistance they can so that the Club may be properly housed and be able to start on a firm basis. With the advice and assistance of sympathisers in the movement, it should be easily possible to procure such quarters.

As for the Hongkong Telegraph, I need hardly say that we shall always be ready to do our very best for the Club, and, in fact, for any movement seeking to encourage the provision of improved wireless facilities. This we shall do in the interests of trade and commerce, as well as of research work in connection with this branch of scientific endeavour. I may mention in passing that we intend shortly installing our own receiving set, and naturally we shall feature in our paper news and articles dealing with this most interesting subject. It goes without saying, of course, that we shall be at all times happy to record the doings of the Hongkong Radio Club.

I will not take up any more of your time, gentlemen, but will proceed with the business of the meeting. The first step necessary will be for someone to propose that in the opinion of this meeting a Hongkong Radio Club be formed. Will someone kindly make a proposition to that effect?

On the proposition of Mr. W. E. Orchard, seconded by Mr. Ribeiro, it was unanimously decided to form a Radio Club.

Membership.

The Chairman mentioned that he had received letters from 93 people who were desirous of joining. He proposed that the names already obtained, together with those present who were interested, should be provisionally enrolled members of the Club. Their membership could be confirmed at a subsequent meeting after rules, etc., had been drawn up.

Mr. Taylor seconded and the meeting approved.

Election of Officers.

The Chairman having intimated that the next business was the election of officers, Mr. J. D. Birrell suggested that no person who was interested in the sale of radio apparatus should be invited to take an official position.

The Chairman observed that the election of officers was entirely in the hands of the meeting. For the position of President the names of Mr. J. H. Donithorne and Mr. R. M. Smith were submitted.

Mr. Smith asked to be allowed to withdraw. The Hongkong Volunteer Defence Corps was inaugurating a wireless section and as he was more or less responsible for it, he was afraid he should not have the time to take on the new duties.

"I think, Mr. Chairman, that Mr. Smith would get more volunteers if he became President of the Radio Club," was the remark of a member of the audience.

Mr. Donithorne was unanimously elected President.

Mr. R. M. Smith was elected Vice-President, and Mr. D. Tolan Hon. Secretary and Hon. Treasurer.

It was decided to limit the Committee to seven, including the three officers. Eight names were submitted and the following four were elected on a ballot: Messrs. J. M. Jack, G. F. Taylor, A. B. Raworth and W. E. Orchard.

The Chairman suggested that the Shanghai Radio Club should be communicated with in reference to obtaining information relating to fees, rules and regulations.

Broadcasting.

Mr. Orchard urged that the Club should get into communication with the Government, pointing out the desirability of the immediate issue of licenses. Unless this was done the Club would not be of very much use.

Mr. J. W. Harris thought the Club should encourage the importation of British manufactured apparatus.

The Chairman said that the Committee might consider that question later on. He believed that there was a clause in the agreement with the Broadcasting Companies that British manufactured goods should be used.

A gentleman at the back of the room felt that the matter might be left entirely to the discretion of the Government.

Mr. Tolan asked whether anything had been done with regard to the issue of licenses.

Mr. Orchard said that if the Hongkong Hotel Company could obtain a provisional license they would be quite prepared to broadcast. The Colonial Secretary had been communicated with to this effect. The Company did not want any guarantee and only wished to demonstrate what might be done. He believed that the Government were awaiting instructions from Home. Provided the Company obtained a provisional license, they were prepared to start broadcasting within a week.

Someone wanted to know whether the Company would do the broadcasting free.

Mr. Orchard: Yes, we will do it free. We shall not, however, guarantee that the programme will be perfect, but if we were granted the sole rights to broadcast we would guarantee a suitable programme.

The question of apparatus having been again raised, Mr. Orchard said there was no obligation on anyone to purchase any particular make. In the event of their being granted the full rights later on some provision might then be made.

The Government's Position.

The Chairman said that the position as far as he understood it was that application had been made by the Company to the Government for a provisional license to broadcast until such time as the authorities here had got into touch with the Home Government and discovered the nature of the agreement entered into with the

Broadcasting Company. With regard to licenses for receiving sets, the only information that he had upon the point was that the Colonial Secretary, in a recent interview, stated that a number of applications had been received and had been readily granted by the Government. At present, however, all that it was possible for amateurs to receive were weather reports and plain messages.

Replying to a question, the Chairman said that at Home any person holding a receiving set must apply to the Government for a license. The licenses were obtained from the Post Office and a portion of the fee went to the Broadcasting Company. He supposed that something would eventually be done in that direction here. Under the provisional license, the question would not arise because the Hotel Company were prepared to broadcast free of charge without any stipulations.

Mr. Orchard prophesied that enthusiasm would soon die out if persons could only receive messages in Morse. "It takes five years for a man to properly learn Morse," he added. "No one will sit and listen to a lot of dots and dashes. I have studied Morse myself, but I cannot pick up half of the stuff sent out by ships."

Several Applications.

A member of the audience asked whether the Government had received applications from any other Companies prepared to broadcast.

The Chairman replied that he believed that other applications had been received. Two had been sent in to his knowledge.

After some further discussion a resolution was unanimously passed urging the Government to expedite the granting of a provisional license to any Company willing to undertake the service.

Mr. R. M. Smith mentioned in connection with the wireless section about to be formed by the Volunteer Defence Corps, that a popular lecture on elementary wireless had been arranged. He gave an invitation to any present who were interested, to attend.

Mr. H. W. Chaney suggested that the Radio Club should do its own broadcasting. "Get the artists into the Club room and broadcast your own stuff," he said, amid laughter.

The meeting concluded with a vote of thanks to the Chairman proposed by Mr. R. M. Smith.

A PUZZLE A DAY.

The entrance to every tunnel, or bridge that crosses a railroad, is guarded by a series of hanging cords, that strike the men riding on top of freight cars, to warn them of the approaching overhead structure. A brakeman, riding on a freight train, was struck by 18 sets of these cords. The train passed under twice as many bridges as tunnels. How many of each were there?

Yesterday's answer:

The above diagram shows how the three houses were supplied with water from the three wells. Each well supplies every house, and none of the pipes cross or join. The "key" to the puzzle, however, lies in the pipe running from well C to house C. The pipe runs through house B, but does not cross any of the other pipes. Otherwise the solution would be impossible.

MANY CHANGES HAVE BEEN MADE

in the manufacture of glasses; one of the most important is that invented by Sir William Crookes, who, as the result of numerous experiments, combining glass with various metals, has succeeded in producing a material which cuts off 98% of the infra-red or heat rays together with the ultra-violet or chemical rays, called Sir William Crookes glass. Crookes lenses of any prescription in either regular or Toric form are manufactured by the Hongkong Optical Co., successors to Clark & Co., manufacturing and refracting opticians—the most competent manufacturing optical establishment in the colony—located in 53, Queen's Road Central.

ORGAN RECITAL

Mr. Fuller's Final Programme.

Mr. Denham Fuller's final organ recital drew a very large congregation at St. John's Cathedral last evening. Despite his very indifferent health, Mr. Fuller gave a splendid programme of eight numbers, and he played with even greater skill and taste than ever before. He brought out the full powers of the organ in the heavier pieces, whilst some beautiful effects were secured in other types of compositions. The programme concluded with the organist's own Recessional, which was delightfully interpreted.

Mr. Fuller is shortly to leave for Australia, where his many friends hope he will gain a complete recovery to health and later return to the Colony.

"HOME SWEET HOME"

One hundred years ago next
 May "Home, Sweet Home," was
 sung in public for the first time.
 The melody came in the second
 act of an opera called "Clari, or
 the Maid of Milan," produced at
 Covent Garden. The libretto was
 written by a wandering American
 actor, John Howard Payne, and the
 music was composed by Sir Henry
 Bishop. The opera died and was
 soon forgotten, but the centenary
 of the imperishable song it be-
 queathed to the English-speaking
 world is to be observed here.
 Leading musicians have expressed
 hope that the anniversary would
 be observed by singing the song
 at concerts throughout the world.

JAPANESE SCIENTIST'S
DISCOVERY.

Misson, Mont. April 15.—Dr.
 Hideyo Noguchi, scientist of the
 Rockefeller Institute, has dis-
 covered a vaccine believed to
 render human beings immune
 from the deadly tick bite which is
 held to be the cause of the Rocky
 Mountain spotted fever.
 Dr. Noguchi summoned a
 group of local Japanese and ex-
 plained that those vaccinated
 might become sick during the
 experiment and even might die
 but that the vaccine must be
 tried on human beings. He then
 called for volunteers. Nine step-
 ped forward, whom he inoculated.
 Spotted fever is almost 100 per
 cent fatal in Western Montana.

JAPANESE STEAMER
FOUNDERS.

The foundering of the Senko-
 maru (1,175 tons) is reported as
 taking place in the Inland Sea on
 the morning of the 6th April. The
 steamer, owned by the Tochihi
 Shoji Kaisha of Wakamatsu,
 Kyushu, was on her way from
 Wakamatsu to Osaka loaded with
 some 1,000 tons of steel goods
 from the Yawata Ironworks. She
 went aground near the Kurushima
 channel and foundered.
 Although the cargo was entirely

DANCING RECORD OF 90 HOURS.
 Cleveland, Ohio, April 19.—
 Miss Juna Curry to-day estab-
 lished a new record for
 continuous dancing of ninety
 hours and ten minutes.

1st the 27 hands on board were
 rescued and landed at Imabara
 port in Shikoku; this report being
 received by the Mott branch of
 the Tochihi Firm. The loss is
 put at ¥100,000 or so. The vessel
 was insured for ¥250,000.
